

# Production Order Management (cPOM)- Digital Efficiency on the Shop Floor

## Situation

- Existing paper based picking of raw material, counting of finished goods, and shipping processes are error prone and time consuming.

## Challenges

- Production orders are printed on paper and handed over to shop floor team.
- Raw material, finished goods, manufacturing times and details are captured on paper.
- Difficult to capture and report accurate timings for each individual activity
- Productivity is not easily tracked
- Difficult to calculate the most accurate cost per lot/batch

## Solution Innovation

- Production Order Management is now paperless, digital, completely mobile, integrateable with SAP Cloud Platform, and less time consuming.
- Novel mobile process include display of production order details, picking raw materials from the warehouse, time stamp capturing all processes, capturing finished product details including quantity, scrap, pictures, and posting real-time.
- Application manages goods issued and receipt by batch and serialization.
- RFID, Barcode scanning, label printing, and image capture functionalities.
- Reporting modules allow bin counters to track the employees' productivity and production time by product, batch, and lots.

## Users

- Manager
- Supervisor
- Shop floor team members

## Value Drivers

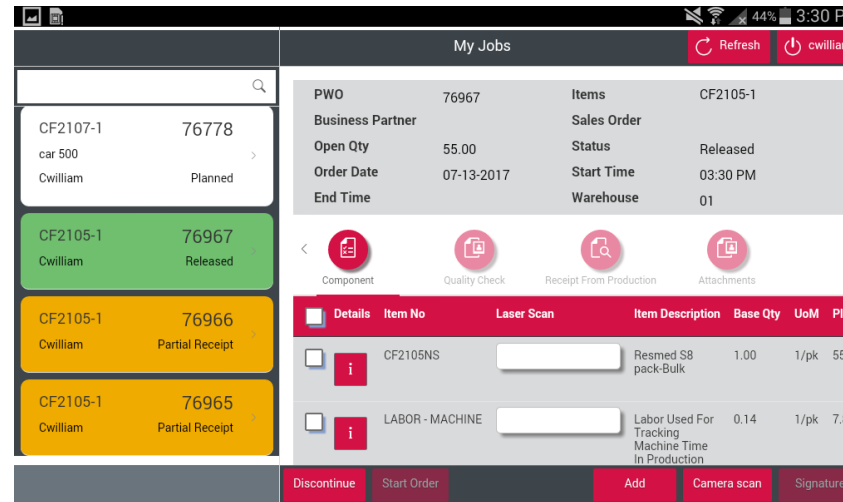

- 100% paperless process with real-time back-end system update
- A disruptive app, pre-packaged to expedite the implementation time, ROI realization, and reduction in TCO up to 80%.
- Completely scalable technology that grows with the business.
- Digitize the production ordering system end-to-end.
- Real time reporting.
- Bar code scanning and signature capture capabilities.
- Fully configurable UI from the back-end
- Multi-lingual capabilities
- Fully responsive with iOS, Android, Tablet, etc. out of the box

## Industry/LoB

- All industries using Production Order process

## GTM Focus

- Americas
- APJ and GC
- EMEA
- MEE

## Solution Environment

- SAP Cloud Platform (SAP CP)
- NetWeaver Gateway
- SAP Business One 9.1 and above
